Career Objective:

To pursue a challenging career in a dynamic, innovative environment, leveraging my skills to develop secure, scalable, and cutting-edge software solutions that drive organizational growth and digital transformation while fostering professional and personal advancement.

Technical Proficiency:

- Java: I have strong knowledge in java, as I developed Web Applications using Spring and "Model-2 Architecture" depends on MVC structure ((M(Model) - Bean, JCF, DAO), (V(View) - JSP), (C(Controller) - Servlet)).

Additional skills:

- Oracle: I have knowledge of DBMS, I can connect websites with databases and can perform operations using SQL queries and PL/SQL programming language.
- Frameworks: I have a working knowledge of frameworks such as Spring, React JS, Tailwind CSS, and Bootstrap.
- UI Technologies: I am skilled in UI technologies such as React Bootstrap, HTML5, JavaScript, CSS and XML as I did projects on websites.
- Cloud Services: Working knowledge of AWS, including services like EC2, S3 and Lambda for cloud-based solutions and deployments.
- Tools: I have good knowledge of technical tools like Maven, Junit, Mockito, GitHub, eclipse, SQL Plus, Git, VS Code, Netlify and Turbo C++.
- C: I have knowledge and I worked with C for my major project.

Projects:

- Online Banking Management System **[Java]**
  Developed a robust Online Banking System with features including user authentication, balance inquiry, fund transfer, transaction history, and account management. Designed a responsive and user-friendly interface with dynamic Filters, JSP pages, Servlets, Beans and DAO architecture. Implemented secure backend operations using Oracle database for transactional integrity and real-time updates.
- User Authentication and Profile Management System **[Java]**
  Implements a secure user authentication system where users can login, register, view, and edit their profiles. The system utilizes HTML & CSS for the front-end, Filters, JSP pages, Servlets & Beans for the back-end logic & security purpose, DAO for database interaction, and Oracle as the database to manage user data effectively.

- Portfolio
  Here, you'll find a collection of all my projects each project demonstrates my attention to detail, proficiency in coding, and passion for design, ensuring an engaging user experience. Explore my work to see how I transform ideas into functional and attractive websites.
  My own Portfolio - https://mazhar970.github.io/Portfolio/Portfolio-master/

Certifications :
- Successfully Completed Udemy CSS, BOOTSTRAP, JAVASCRIPT, WEB DEVELOPMENT Course, acquiring essential skills in web development.link
- Successfully Completed Udemy Master Google SEO Strategies. link

Education:

Course	University	Year	Percentage/ CGPA
B.Tech (Information Technology)	Institute of Aeronautical Engineering	2019-2023	7.3
State Board of Intermediate Education	Sri Chaitanya Junior Kalashala	2017-2019	85.6
Board of Secondary Education	Indo English School	2016-2017	8.7

Extra-Curricular Activities:
- Actively participated in Hackathons at college IARE.
- Participated in workshop on Hands on Machine learning and Deep Learning.

Skills:
- Ability to accept constructive feedback and work towards self-improvement and professional growth.
- Ability to maintain an optimistic attitude with resilience and persistence.
- Ability to communicate well with good interpersonal and soft skills.

Declaration:
I hereby declare that all the information provided above is true to the best of my knowledge.

Place: Hyderabad.
